Prolongation of Renewal Type Approval Certificate

To whom it may concern

We herewith confirm that company, Meson AB, has applied for a renewal certification for the following certificate:

TAP000006M

The process of renewal has started and DNVGL is in progress to review the documentation and handle comments (if any). Until the new certificate is issued the old certificate remain valid.

It is the company's responsibility to produce the products exact to the a.m. certificate. Modification (if applied in renewal) will be covered after release of new type approval certificate only.

If a.m. company revoke application for renewal it is their obligation to inform all end-customer that this statement is invalid and the expiry date from original certificate is reinstated.

Sincerely

for DNV GL Sweden

Philip Christiansson M.Sc.
